Dear Minister for Health,

I am delighted to announce my candidacy for the esteemed position of Regional Director of the World Health Organization (WHO) African Region. I would like to emphasize my extensive experience both nationally and internationally, has equipped me with the necessary skills and knowledge to effectively lead and serve the African region.

My journey in the field of healthcare has been enriched by diverse experiences, ranging from working at the national level to collaborating with international organizations. These experiences have provided me with a deep understanding of the challenges and opportunities that the African region faces in terms of healthcare. I have successfully implemented various initiatives and strategies that have positively impacted the health outcomes of communities, and I am committed to continuing this work on a larger scale as the Regional Director.

My vision for the African region is to ensure equitable access to quality healthcare for all individuals, regardless of their socio-economic background. I believe in the power of collaboration and will strive to strengthen partnerships with governments, NGOs, and other stakeholders to address the region's health priorities. By focusing on health security, promoting universal health coverage, health promotion and prevention measures, strengthening healthcare systems, and promoting innovation, among other priorities, I aim to improve the overall health and well-being of the African population.

My mission is to be a servant leader who empowers countries to shape their own health futures.

My commitment is to transparency, consensus building, and collaborative action to improve health security and outcomes across the region. With your support, I am confident that I can make a significant difference as the Regional Director of WHO African Region. Together we can build a healthier, more equitable future for Africa's people.

Dr Faustine Englebert Ndagulile

Candidate for the position of Regional Director, WHO African Region

The Government of Tanzania has endorsed Dr Faustine Engelbert Ndagulile to contest this position. Dr Ndagulile seeks to be the first East African to hold this position. Dr Ndagulile has over 20 years senior level experience in global health within Tanzania and at international level.

VISION

A continent of Africa where every individual flourishes with optimal health and well-being, enabled by accessible, equitable, and sustainable healthcare systems.

MISSION

Committed to advancing healthcare access, quality, and equity in Africa through strategic leadership, partnerships, and evidence-based interventions.

STRATEGIC PRIORITIES

1. UNIVERSAL HEALTH COVERAGE (UHC)

Through robust UHC policies, working with member states to expand financial protection, remove barriers to access, and enhance healthcare quality.

2. MATERNAL AND CHILD HEALTH

By improving maternal and child health outcomes by investing in maternal healthcare services, nutrition programs, and early childhood development.

3. NON-COMMUNICABLE DISEASES (NCDs)

By addressing the rising burden of non-communicable diseases through education, promoting healthy lifestyles, vaccination programs, screening programs, and access to treatment, palliative and rehabilitative services.

4. PRIMARY HEALTHCARE (PHC)

By prioritizing PHC as the foundation of health systems. This includes investment in infrastructure, workforce development, engagement of community health workers (CHWs) and integration of services for equitable impact.

5. CLIMATE RESILIENT AND SUSTAINABLE HEALTH SYSTEMS

By promoting robust health systems that are both resilient to climate impacts and sustainable in the long term.

6. HEALTH SECURITY

By reinforcing pandemic preparedness and response capabilities, including disease surveillance, laboratory strengthening, and emergency response including combating antimicrobial resistance (AMR).

7. INNOVATION AND RESEARCH

By promoting an African-led research agenda focusing on local health priorities, fostering regional research networks, and translating discoveries into practical applications.

8. PARTNERSHIPS AND COLLABORATION

By nurturing regional collaboration, build strong alliances with stakeholders, and advocate for global support to address Africa's health agenda.

STRATEGIES

1. Prioritizing Equity
2. Use of Evidence-Based Decision-Making
3. Community Engagement approach
4. Member states and Stakeholder engagement
5. Promoting Transparency and Accountability
